

GENERAL INFO
HIGH PRESSURE TUBING

High Pressure Tubing for Drinking Water

Purtec's KTU Series high pressure tubing for drinking water is made from Linear Low Density Polyethylene (LLDPE). Made from a blended form LDPE making it the best choice for tubing when it comes to drinking water filtration systems.

The KTU Series tubing is available in a range of lengths and sizes and rated for pressures up to 1600kpa*.

FEATURES & BENEFITS

- Specifically designed for drinking water systems.
- Compatible for liquids other than drinking water at users discretion.
- Range of lengths and sizes available.
- Available in blue & white tubing (white not available in all sizes).
- Suits imperial sized fittings.
- Available in 2 metre, 10 metre & full rolls.

Ordering Code	Size	Colour	Length	kPa Rating at 20 °C	kPa Rating at 65 °C
KTU4BL-2	¼"	Blue	2 metre pack	1600	1000
KTU4BL-10	¼"	Blue	10 metre pack	1600	1000
KTU4BL-152	¼"	Blue	152 metre roll	1600	1000
KTU4W-2	¼"	White	2 metre pack	1600	1000
KTU4W-10	¼"	White	10 metre pack	1600	1000
KTU4W-152	¼"	White	152 metre roll	1600	1000
KTU5BL-2	⅝"	Blue	2 metre pack	1600	1000
KTU5BL-10	⅝"	Blue	10 metre pack	1600	1000
KTU6BL-2	⅜"	Blue	2 metre pack	1600	1000
KTU6BL-10	⅜"	Blue	10 metre pack	1600	1000
KTU6BL-152	⅜"	Blue	152 metre roll	1600	1000
KTU6W-2	⅜"	Blue	2 metre pack	1600	1000
KTU6W-10	⅜"	White	10 metre pack	1600	1000
KTU6W-152	⅜"	White	152 metre roll	1600	1000
KTU7BL-2	½"	Blue	2 metre pack	800	600
KTU7BL-10	½"	Blue	10 metre pack	800	600
KTU7BL-76	½"	Blue	76 metre roll	800	600

*Important Note: *1600kPa is based on ¼" to ⅝" tubing at 20 °C. Fittings with metric sizes are not compatible.*
