

GENERAL INFO

COMMERCIAL DRINKING FOUNTAINS

Smart and sleek, stainless steel water fountains, with Ultra Z filtration for the most demanding applications.

The Puretec D series dispense filtered and chilled water using a robust anti-tamper bubbler with the option of a carafe filler also, if required. It is available in three different capacities 10, 20 and 30 litres per hour, depending on application requirements. The D Series system uses state-of-the-art on-demand water chilling technology, ensuring superior capacity and efficient energy usage.

Importantly, the D Series systems incorporate the market-leading Ultra Z Filtration Technology. Ultra Z Filtration Technology filters out chlorine, taste & odour, sediment, chemicals, bacteria and cysts down to 0.1 of a micron.

FEATURES & BENEFITS

- Includes vandal-resistant bubbler, with an integrated guard to protect against contamination, airborne deposits, and tampering.
- Produces water chilled to 4 - 12°C for a refreshing cool drink.
- Mechanically activated push-button activations continue to provide water even when electrical service is not available.
- Comes with the choice of a bubbler tap only or with an additional carafe filler tap.
- Manufactured to the highest standards and will provide years of trouble-free service. Constructed in 304 stainless steel and it is built to last.

APPLICATIONS

- Schools
- Airports
- Factories
- Gyms
- Offices
- Hospitals
- Other commercial high demand applications.

D SERIES | DRINKING FOUNTAIN, BUBBLER ONLY

The D Series systems incorporate the market-leading Ultra Z Filtration Technology. This range has the option of the filter installed in the cabinet or provided separate so the filter can be installed externally.
